Dodge Williams 4 Piece Band

Technical and Stage Rider

Front of House System

The P.A. must be of high quality (EAW, Nexo, Turbosound, etc.) and have all components, working with adequate power for the size of the venue. The system should be run in stereo with even frequency response of 35hz to 18 khz and be capable of producing an SPL of 110db (A) at all points within the venue.

Minimum 32-channel stereo F.O.H. desk, complete with four-band sweep able EQ and phantom power and two quality multi-effects units. Ie: SPX 90, 900, Lexicon plus minidisk deck or cd player.

Band Makeup
